Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**01/05/20 - 01/11/20**

## **Sunday-Monday**

- Valley rain and mountain snow is expected in far northern California today
  - Impacts are expected to be minor and short-lived
- Moderate to strong north to northeast winds (Santa Anas) are expected this afternoon through Tuesday morning across parts of southern CA.
  - Offshore/northeast winds across southern CA mountains may gusts as high as 70 mph on Monday morning.

## **Tuesday-Saturday**

- Additional mountain snow and valley rain can be expected mid to late next week across northern CA as a wet pattern establishes across the West Coast
- Our confidence on timing and amounts is low at this time, but the weather pattern suggests a long extended period of active weather largely across northern CA, but also impacting southern CA at times during the late week and into next weekend.
- No other impacted expected at this time
